www.wadecollectorscentre.com

On our tenth anniversary, C&S have produced this price guide to help collectors identify and value genuine C&S products made by Wade at their Burslem factory in Staffordshire, England. It has been our policy over the last ten years to produce Wade Collectables that not only can be enjoyed, but in time increase in value. Remember that secondary market values given are only an indication of what you might be expected to pay from a reputable dealer. Over the last ten years, the collectors market has changed dramatically and we have produced a wide variety of items from Whimsies to the fantastic 9" Betty Boop Premier Collection figurines. All have been greeted with great enthusiasm from collectors worldwide and continue to be highly sought after and command high prices at collectors fairs and on internet auctions. We hope that this guide assists collectors in authenticating and valuing their C&S Wade collection.

Items have appeared on the market for which there is no explanation as to their origin. All C&S commissions produced by Wade Ceramics Ltd. (with the exception of the original Arthur Hare CS001, CS002, Arthur Hare Whimsies CS034 and CS035, Andy Capp CS060 and Flo CS062, mugs, Whimbles and key chains) are issued with a numbered certificate of authenticity. Be sure that what you are buying is an authentic C&S Wade product and remember that anything not listed in this guide produced before the date of publication may not be genuine.
